Department of Communication Design

Course / Level	DE124101

|			
Module	DCD3006 Web Media Workshop	Tutor Name	Henry Chong

Name: _____   **Class Code:** _____

CSS Position

1) Use a text editor (**Visual Studio Code** / PC-**Notepad** / Mac-**TextEdit**) to create a HTML page

2) Prepare files & Folders before writing HTML / CSS / JavaScript

Naming conventions:
- Use **English characters** as file / folder name
- Use "**underscore**" symbol instead of space between words
- Always name the first page of a web site as "**index.html**"
- In this class exercise, you will need to create an External CSS in order to make the below visual by using CSS Position (absolute) technique to move the "Welcome to Mario Club" to the proper position
- Centralize the whole picture horizontally in the browser

Use <header>
Background-color: #ff0000
Width 1000px
Padding 20px
Align the logo to center

200px

Use <selection>
Width 1000px
Height 563px

Box width: 450px
Padding 20px
Background-color: #ff0000
"Welcome to", color: #feb614 , font-size 45px
"Mario Club", color: #ffffff , font-size 30px

3) All the information as below
- Add universal selector to the **style.css** in order to make the margin become zero, type in ***{margin:0;}**

4) Send the Zip all the files together with your Student No. and English full name to webmediaworkshop2020@gmail.com

5) Deadline: 26 March 2020
